

# SUSTAINABLE CHEMISTRY AND TECHNOLOGIES FOR CIRCULAR ECONOMY

MASTER'S DEGREE PROGRAMME

## TOP REASONS WHY YOU SHOULD ENROL IN THE NEW PROGRAMME

1. It is among the very few programmes of its kind in Europe;
2. It has a strong professional approach, allowing students to spend an internship period in companies or research bodies;
3. It is entirely taught in English, offering an international study environment;
4. It has an interdisciplinary curriculum that combines together a number of different subjects, ranging from chemistry to European Union law;
5. It utilizes teaching resources and skills from 12 different departments of the University of Padova;
6. The University of Padova is among the top 200 universities in the world and the leading University in Italy;
7. Last but not least, Padova is a very student-friendly city with plenty of activities and things to do.

## COURSE INFO

**LEVEL:** Master

**DURATION:** 2 years

**LOCATION:** Padova

**SCHOOL:** Science

**DEPARTMENT:**

Chemical Sciences

## APPLICATION DATES

**International students:**

2nd March - 2nd June

**European students:**

2nd March - 2nd September

**Italian students:**

19th July - 30th September
