WORKSHOP MS-DIAGNOSIS

MS DIAGNOSIS 2026 is a workshop meeting devoted to mass spectrometry and its applications in human and veterinary diagnostics. The meeting aims to provide a platform to meet and discuss the state-of-the-art, instrumentation, methodology, innovation, and applications of mass spectrometry in the field of human and veterinary health. Furthermore, the conference will provide an ideal opportunity to link the needs of hospital and veterinary clinics with academic knowledge and to promote networking, discussion, and cooperation among scientists coming from public and private institutions, universities, industries, control, and research institutes.
