

Lunedì 28 ottobre 2019 alle ore **16:00** presso l'aula I

Dipartimento di Scienze Chimiche, via Marzolo 1

il ***Dott. Marco Fachini***

patent attorney presso Lederer & Teller
Monaco, Germania

terrà il seminario dal titolo:

Patent attorney, a prospect after the PhD

La presenza della S. V. sarà molto gradita

Il seminario è rivolto in particolare agli studenti delle Lauree magistrali e dei corsi di Dottorato

Abstract: The patent attorney profession constitutes an interesting job opportunity for a PhD graduate in a scientific subject. The main activities of a patent attorney, as well as the education and training to obtain the qualification will be discussed.

Marco Fachini graduated in chemistry at the University of Padova in 1994. After years devoted to the synthesis of active pharmaceutical ingredients, he moved into the patent field and qualified as Italian and European patent attorney. In 2008 he joined the pharmaceutical company Sandoz in Munich, Germany. Currently, he is partner of the patent law firm Lederer & Keller in Munich. He holds the module on patents of the course "Patents, rules and product development" for the Master Degrees in Chemistry, Industrial Chemistry and Material Science at the University of Padova.
